MANUFACTURING DECKING SOLUTIONS

...Revolutionizing the hardwood building industry.

DeckWise® was founded on a simple premise; provide builders and homeowners the finest products — built the American way — with quality and ingenuity. Since the year 2000, the DeckWise® brand has become recognized world-wide as a leader in developing innovative solutions for the exotic hardwood market.

Our flagship line, The EXTREME® invisible deck fixing is the original injection molded deck fixing with a stainless steel insert for reinforcement. Patented in the USA (2004), its success inspires us to expand our hardwood building product line more and more every year across the globe. Experience the DeckWise® difference!

{ If it says **Manufactured by DeckWise®** — you know you are using the best on the market. }

DeckWise.eu 

DeckWise® International B.V. was established in 2011 and has been supplying dealers in most European countries ever since. Our Netherlands warehouse stocks all products and orders ship in 2-3 days across Europe. Become part of our dealer network today!

INVISIBLE DECK FIXINGS

Manufactured By DeckWise®

Available in **3 SIGNATURE COLORS** to match your deck.

Shadowline Black • Hardwood Brown • Composite Grey

Injection Molded
UV Polymer Casing

Hardened
Stainless Steel Insert

Built-In Spacers

The DeckWise® hardwood deck fixing clip is unlike most “all-metal” fixings which, can react with timber oils triggering staining. The EXTREME® clip is constructed of a hardened plastic polymer resin shell that increases UV & chemical defense qualities; and has a stainless steel insert for reinforcement. Our solid stainless steel insert securely holds deck planks to joist sleepers (up to 3X additional hold-down strength), preventing screws from pulling through the clip as the timber plank expands.

Premium made in the USA for exotic hardwood decks, the color of the plastic resin also works to camouflage and disguise the clip between the deck plank gaps.

Invisible Clip Kit

- (185) EXTREME® Invisible Deck Fixings
- (200) 4x50mm Black Stainless Steel Screws
- (12) 9,6mm Tapered Ipe Wooden Plugs
- (1) 3,2mm High Speed Drill Bit
- (1) T15 Star Drive Tip
- (3) Plank Spacer Wedges
- (1) Instruction Sheet

A2 Stainless Steel
Trim-Head screws included in
each container.

7,5L PRO Bucket

- (555) EXTREME® Invisible Deck Fixings
- (600) 4x50mm Black Stainless Steel Screws
- (3) 3,2mm High Speed Drill Bit
- (3) T15 Star Drive Tip
- (6) Plank Spacer Wedges
- (1) Instruction Sheet

Spacer Wedges are Included in
EXTREME4® and EXTREMEKD®
containers only.

EXTREME®

Gap spacing 2,4 mm (3/32")

EXTREME4®

Gap spacing 4mm (5/32")

EXTREMEKD®

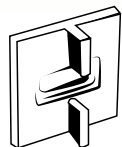

Gap spacing 6,4 mm (1/4")

Fast and simple installation • No visible screws produce a family safe, beautiful deck
Uniform, precise timber gap spacing • Pull out resistance up to 500 KG of strength

COMPATIBLE WITH MOST EXOTIC HARDWOOD SPECIES FROM SOUTH AMERICA, ASIA, AND AFRICA.

Recommended for use with:
Air-Dried Hardwoods,
Thermal Woods &
Composites

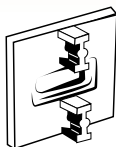

Hardened stainless steel insert
inside rigid UV-and-chemical-
resistant polypropylene.

Smaller leg maintains a perfect
gap when materials contract due
to environmental conditions.

Recommended for use with:
Air-Dried, Kiln-Dried
Hardwoods, Thermal
Woods

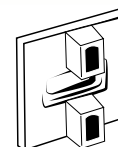

Hardened stainless steel insert
inside UV-and-chemical- resistant
polyethylene.

Versatile leg is compatible
with most deck materials.

Recommended for use with:
Kiln-Dried Hardwoods,
Thermal Woods,
Composites & PVC

Hardened stainless steel
insert inside UV-and-chemical-
resistant polyethylene.

Hollow leg acts as a shock absorber
as kiln-dried materials expand.

NOTE: Check with your timber supplier for recommended gap spacing.

EXTREME® Ipe Clip® Series - U.S. Patent Numbers D485,160 and 8,464,488. Original, "round", STANDARD Ipe Clip® - U.S. Patent No. D470,039; licensed under U.S. Patent No. 6,402,415.

Symmetrical & Reversible Timber Planks

Choose the Best Side of Your Timber Plank to Install

POSITIONING DECK GROOVES

Symmetrical groove profile allow planks to be reversed and/or flipped to put the best side up.

CUTTING DECK GROOVES

Cut the groove yourself using a standard biscuit joiner or router using a 4mm slot cutter 13mm deep.

SCREWS DRIVEN AT A 45° ANGLE

The ability to run screws at a 45 degree angle through hardwoods greatly increases hold-down strength. Studies have proven that screws have more holding strength when installed at an angle. This method also maintains even gap spacing while properly allowing boards to expand and contract with the seasons.

Buy container loads of timber already grooved for DeckWise® invisible fixings. Call us for information and assistance with any of these options.

HARDWOOD DECK TILE SYSTEM

Manufactured By DeckWise®

Available in Ipe,
Cumaru, Tigerwood
and Massaranduba.

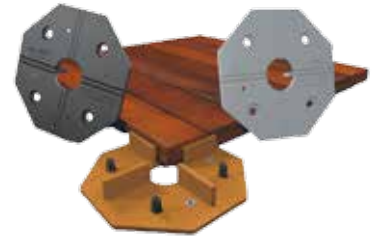

Size ranges are:
600mm x 600mm x 43mm &
500mm x 500mm x 30mm

LUXURIOUS.
LONG-LASTING.
EXCEPTIONAL VALUE.

Constructed from responsibly harvested premium grade hardwood remnants.

Hardwood Deck Tiles are perfect for new or renovated residential and commercial applications. Designed for both the DIY homeowner and the professional contractor, these tiles are ideal for roof tops, gardens or over any area a typical deck cannot be installed. The exotic shading and natural wood color variations provide the rich look of a luxurious deck. Made from Brazilian hardwoods, they are extremely durable, naturally resistant to insects, and rot resistant.

BRAZILIAN
HARDWOOD
SMOOTH & ANTI-SLIP
DECK TILES

WiseTile™ Deck Tile Connectors (sold separately) simply snap in place, precisely, accurately and securely over virtually any hard surface.

5x64mm

Sizes Available

100 count 350 count

5x64mm (#10x2-1/2")

- T-20 drive delivers plenty of torque without stripping out the heads
- Head designed to eliminate mushrooming or marring of deck surfaces
- These flutes grab the board and hold it tight to the joist
- Middle threads compress fibers deep in the hole, further helping to reduce mushrooming
- Lower threads grab the joist to additionally hold the board tight to the joist
- Sharp Type 17 auger point cuts fast and clean without splintering or splitting

HEAT-TREATED STAINLESS STEEL SCREWS

Distributed By DeckWise®

HEAT-TREATED FOR HARDENED TOUGHNESS

Self-Drilling No Pre-drilling Required

- **ttap**® T15 Star Drive head for less slipping
- Heat treated for hardened toughness
- Serrated saw threads remove sawdust
- Four sided tip for self-drilling

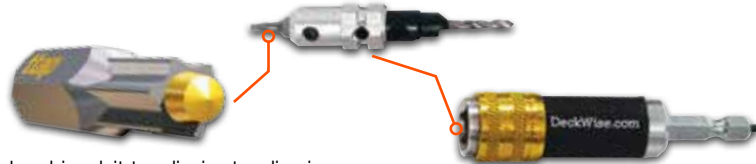

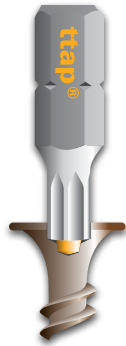

* TTAP® is a registered trademark of Ttap Drive AS.

4x45mm &
4x50mm

DeckWise® Self-Drilling Heat-Treated Screws will easily penetrate hardwoods and most thermally modified timber.

LESS STRIPPING, LESS SNAPPING, LESS HEADACHES!

Locking bit to eliminate slipping.

Use in conjunction with the DeckWise® Drill & Drive™.
